

## **E-Transcripts (Docufide)**

The Indiana Department of Education and the Indiana Commission for Higher Education have been working in partnership over the past year to develop a system for facilitating the electronic transfer of Indiana high school transcripts to the state's colleges and universities.

With funding provided by Indiana Secondary Market for Education Loans, Inc., the e-Transcript Initiative will serve as a secure and cost-effective means for Indiana students to request high school transcripts online and for high schools to electronically process and deliver transcripts to all participating in-state public and private postsecondary institutions-at no cost to either the school or student.

Designed to add efficiency and reliability to the process of sending transcripts, e-Transcript has the potential to save Indiana's high school and colleges significant time and administrative expenses. Though e-Transcript is initially focused on transfers from high schools to postsecondary institutions, transferring transcripts between high schools and between colleges is planned as a future capability.

[Click here](#) for a link to Docufide where students may order transcripts online. Click on "Register, or order transcripts" then click on "Docufide Downloads". Under "Information for high schools and school districts" click "Secure Transcript Link for Students."

For transcripts of the GED test taken in South Bend, call 283-7505.
